

## INVITATION

### **Seminar on how to write a successful Grand Solutions proposal for Innovation Fund Denmark**

*April 3, 13:00 – 15:00  
Building 5530, room 07*

Funding from Innovation Fund Denmark can help you achieve your scientific ambitions. At Science and Technology we have plenty of talent and research that are eligible for funding from Innovation Fund Denmark.

Industry Partners are pivotal, and with this seminar, we want to specify and illustrate how you can incorporate companies in the application process and thereby improve your chances of success for the next Grand Solutions application round.

The programme of the seminar focuses on company involvement and best practice:

13:00: **Welcome** w/Søren Rud Keiding, vice dean, ST

13:10: **Matchmaking local companies with researchers**  
Business Centre Central Denmark

13:30: **What makes a Grand Solutions application good?**  
René Damkjær from Innovation Fund Denmark shares his do's and don'ts based on the many applications he has evaluated

14:15: **The successful Grand Solutions project**  
Esben Auken, Dept. of Geoscience, tells about his way to a successful Grand Solutions project

14:45: **Support in your application writing** w/Research Support Office

15:00: End of today's programme

Sign up by sending an email to Louise Godt: [logo@au.dk](mailto:logo@au.dk) no later than Monday, 1 April.

#### **Research Support Office**

**Louise Godt**  
Research advisor
