

Call Grand Solutions 2022

Digitalization, technology and Innovation

Application deadline: April 5, 2022, 12.00 PM, CET

Project duration: 1-5 years

Total budget: Minimum 205.4 mill. DKK.¹

Investment per project: from 5 mill. DKK to 40 mill. DKK.

1. About the Grand Solutions Programme

The Grand Solutions programme invests in ambitious, and preferably, interdisciplinary research and innovation projects that can create new, specific solutions to important, politically prioritized societal challenges and create value throughout Denmark. To the extent possible, the Grand Solutions programme invests in projects that are carried out in close collaboration between research institutions and the business community.

Read more about the Grand Solutions programme [here](#).

2. Aim of the call

With investments within the call "Digitalization, technology and innovation", Innovation Fund Denmark should create breeding ground for the development of products and new knowledge-based solutions that contribute to maintaining production and jobs in Denmark.

The investments shall contribute to strengthen research and innovation within a number of important digital and technological areas, including the earlier strategic basic research within areas such as robot- and drone technology, automated production technology, big data and artificial intelligence, quantum technology and quantum computing, cyber and information security, space-based technology and data. The initiative can, for example, support the development of digital solutions for the benefit of the green transition, health and welfare. The investments can also utilize new knowledge about the significance of digitalization for people and society, etc. Finally, the investments can be used for research and innovation, which seek to create more gentle workplaces and new forms of organization, etc.

The projects can support the development of local business lighthouses (in Danish: "erhvervsfyrårne") (see link in section 5: "Guidelines and inspiration")

3. Evaluation

The three overall decision criteria are:

- Quality of the idea – the quality of the research and innovation
- Impact – value creation during and after the project
- Quality of execution – efficiency in the project execution and the implementation of the results

¹ With the possibility of transferring funds from Innovation Fund Denmark's other programmes. The potential transfer of funds can concretely result in an increased budget.

Further information about the decision criteria can be found in the guidelines for Grand Solutions, which will be published on Innovation Fund Denmark's website at the end of January 2022 (see link in section 5: "Guidelines and inspiration")

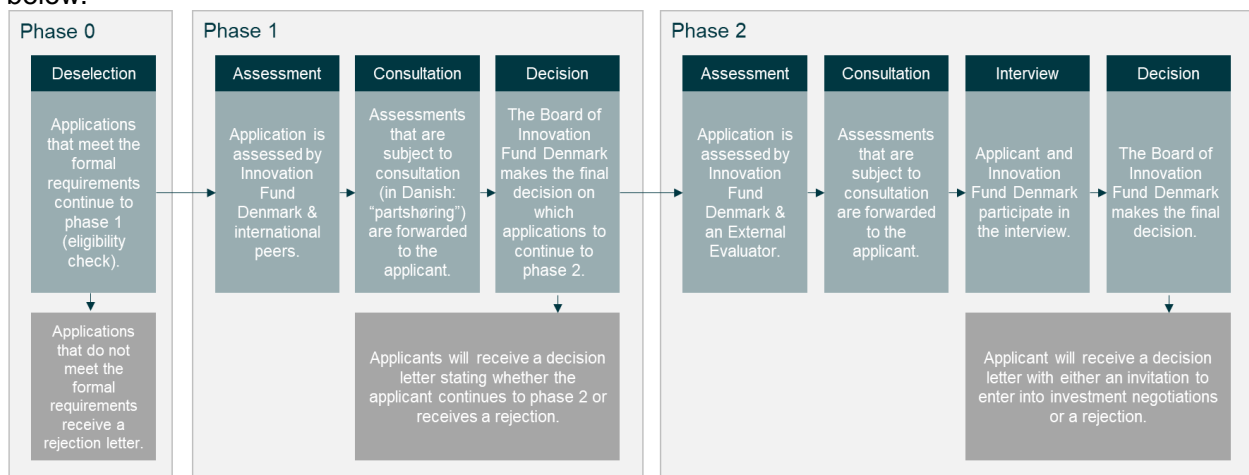

It is emphasized that key stakeholders of the project contributes to develop the project and participates in, or in other ways are directly involved in the project, e.g. through investment.

In addition to the three decision criteria, reference is made to the guidelines for Grand Solutions. The distribution of the funds originates from the current Finance Act and the agreement on the disposition of the Research Reserve (see links under section 5: "Guidelines and inspiration").

4. The evaluation process

Applications to Grand Solutions must be submitted via www.e-grant.dk, which is the application portal of Innovation Fund Denmark. The call open in e-grant on February 1, 2022. Please note, that applicants will receive a receipt for submitting the application if the application is submitted after mid March 2022.

The evaluation process is described in detail in the guidelines for Grand Solutions and briefly outlined below.

Applicants are notified of the decision via www.e-grant.dk. E-grant has prepared a FAQ that can be accessed [here](#).

It is expected that the project applications proceeding to phase 2, will receive either invitation for investment negotiations or rejection of application in November 2022, after which the investment negotiations can be initiated with an expected project start in the beginning of 2023.

5. Guidelines and inspiration
